TPG Slashes Sydney to Singapore Bandwidth Costs

Sydney, 11 April 2013 – TPG Telecom (ASX: TPM) is pleased to announce the launch of 1 Gbps Link between Sydney to Singapore for corporate customers who require fast and reliable access between the two locations.

Available for \$6,500 per month + GST, this product is well poised to take the market by storm.

“This is the most cost effective and aggressive pricing we know of in the market place. Our customers have been looking for a cost effective solution into Asia for a long time now. It is significantly cheaper than what many are paying for bandwidth between Sydney and Perth” said Wayne Springer, TPG’s Corporate Sales Manager.

The traffic is delivered via TPG’s owned PPC-1 submarine cable from Meet-Me-Room facilities in Sydney and then switched to Singapore where it terminates at a Meet-Me-Room facility in a data centre in Singapore.
